General Information	
Extended Product Type:	MO132-6.3
Product ID:	1SAM360000R1009
EAN:	4013614400247
Catalog Description:	MO132-6.3 Manual Motor Starter Magnetic Only
Long Description:	The MO132-6.3 manual motor starter mangnetic only is a compact 45 mm width devices wit h a rated operational current of le = 6.30 A. This device is used to manually switch on and off loads/motors and to protect them reliably and without the need for a fuse from short-circ uits. The manual motor starter offers a rated service short-circuit breaking capacity lcs = 5 0 kA at 400 VAC. A combination together with overload relays or motor controllers allows th e protection of motors. Further features are the build-in disconnect function, trip-free mech anism and a rotary handle with a clear switch position indication. The manual motor starter mangnetic only is suitable for three- and single-phase applications. The handle is lockable to protect against unauthorized changes. Auxiliary contacts, signalling contacts, undervolta ge releases, shunt trips, 3-phase bus bars, power in-feed blocks are available as accessor y.
