Sensor terminal block, 280 Series, gray

Fault-free electrical installations are guaranteed with this sensor terminal block (item number 280-570). Conductors can only be connected to this sensor terminal block if their strip length is between 8 mm and 9 mm. Featuring conductor terminals along with CAGE CLAMP®, this connector outperforms the competition. Our tried-and-tested universal connection known as CAGE CLAMP® leads the way when it comes to connection technology and electrical interconnections. This sensor terminal block is suitable for conductor cross sections ranging from 0.08 mm² to 2.5 mm². It has four levels. Four potentials can connect using the five clamping points. The gray housing is made of polyamide (PA66) for insulation. These function terminal blocks are mounted using DIN-35 rails..
