Chassis-mount terminal strip, 862 Series, with 12 mm pin spacing

Our chassis-mount terminal strip (item number 862-9603) is designed for seamless electrical installations. Ensure that the strip lengths are between 10 mm and 11 mm when connecting conductors to this chassis-mount terminal strip. This product features conductor terminals and utilizes Push-in CAGE CLAMP®. Push-in CAGE CLAMP® technology provides a universal connection solution for all conductor types. It allows both solid and fine-stranded conductors with ferrules to be inserted directly into the clamping point without the need for tools. This chassis-mount terminal strip is suitable for conductor cross sections ranging from 0.5 mm² to 4 mm². There are twelve clamping points available that you can use to connect three different potentials / three poles. The white housing is made of polyamide (PA66) for insulation.

Installation Notes

WAGO

Cost-effective features:

WAGO's 862 Series Chassis-Mount Terminal Strips were developed specifically to minimize wiring costs, while accommodating requirements for flexible mounting, multiple connection points and easy usage:

• Equipped with Push-in CAGE CLAMP®, the 862 Series connects up to four conductors sized 0.5 to 4 mm² (20 ... 12 AWG). Due to multiple connection points per pole, different conductor sizes can be used within the same terminal block position.
• For factory wiring, Push-in CAGE CLAMP® Connection Technology allows solid conductors, fine-stranded conductors with ferrules or ultrasonically bonded conductors from 0.5 ... 4 mm² (20 ... 12 AWG) to be terminated by simply pushing them into unit (length of bonded conductor end: min. 10 mm).
• Convenient automatic grounding contact (optional)
• Snap-in mounting feet for fast assembly
• Push-buttons for easy installation with an operating tool or by hand
• Built-in test points simplify testing with 2 mm Ø test plug
• Standard marking for each pole, or custom marking for large orders

Conductor termination

Terminating four conductors per pole – solid and fine-stranded.

Inserting a conductor via push-button.

Commoning

Commoning using a comb-style jumper bar (862-482).

Testing

Testing with a 2 mm Ø test plug (max. 42 V).
