

·TX2 系列三合一防尘网罩其设计理念以简单实用为主，实现物美价廉的功效。其通风网本体材质为：耐燃级 ABS 树脂，滤网材质：

尼龙纤维合成树脂，滤网压损：初期 6.9mmAQ 终期 24mmAQ，最大风速：2.0m/sec，使用温度范围：-10℃ ~55℃，有效风速：50m3/min，高达 89% 的除尘率，防护等级可以达到 P40。

The design concept of TX2 series three in one dustproof mesh cover is mainly simple and practical, and achieve the purpose of high quality and favorable price. The material of the ventilation network body is flame-resistant ABS resin, and the material of filter, mesh is nylon fiber reinforced synthetic resin. The pressure loss of the filtermesh is 6.9mmAQ in the initial, stage and 24mmAQ in the final stage, with a maximum wind speed of 2.0m/sec. The operating temperature range is -10℃ ~55℃, and the effective wind speed is 50m3/min. The dust removal rate is up to 89%, and the protection level can reach P40.

订货型号 Model No.	A	B	C	D	E	F	适配风机尺寸 Matched fan size	适配风机型号 (举例) Matched fan model (for example)
TX2040	44	44	7	32	40	3	40x40mm	TX4010H24
