

# Schneider Electric Easy UPS 1 Phase Online

# **Family Brochure**

For IT professionals in small to medium businesses, Easy UPS Online provides basic power protection in unstable power conditions, ensuring consistent and reliable connectivity at the most critical moments.

Schneider Electric Easy UPS Online is a versatile, high-quality, cost competitive UPS developed to handle a wide voltage range and inconsistent power conditions, delivering the quality millions of IT professionals around the world trust.

www.se.com

# Easy UPS 1 Ph Online Features

Tower Models (standard & extended runtime)

Available in 1, 2, 3, 6, 10 KVA

Rack Models (standard & extended runtime)

> Standard available in 1, 2, 3, 6, 10 KVA

Extended available in 6 & 10 KVA

#### **Extended Runtime Models Available**

Add external battery packs to scale runtime from minutes to hours, fulfilling the needs of long runtime applications

#### ECO Mode / Green Mode

Energy saving mode allows input voltage regulation range to be be set/modified through the LCD display

#### **Generator Compatible**

Ensures clean, uninterrupted power to the loads during an extended power outage

#### High Power Factor

More real output power in watts: 0.8 PF for 1, 2 & 3 kVA, unity PF for 6 & 10 kVA

#### **Environmentally Robust**

Conformal coated

#### **Intelligent Battery Management**

Maximizes battery performance through intelligent precision temperature compensated charging

## Overvoltage Cutoff Device Protection

Under special application with high voltage condition, OVCD protection will prevent the damage of UPS components and extend UPS lifespan

#### **Input Power Factor Correction**

Minimizes installation costs by enabling the use of smaller generators and cabling

## **Excellent Power Quality and Performance**

True Double Conversion provides tight voltage, frequency regulation and zero transfer time for reactive loads

#### Wide Input Voltage Range

60% Load: 110-300VAC (applicable to 6 & 10 kVA models)
Allows for unstable power environments and minimizes transfer to battery

### **USB Port / Serial Port**

Provides management of the UPS via USB/serial communication

#### Flash Upgradeable Firmware

Allows for field updates of firmware via communication ports

## LCD/LED Display

Intuitive interface provides detailed and accurate information about UPS status with ability to configure locally

#### **Power Conditioning**

Protects connected loads from surges, spikes, lightning and other power disturbances

# Easy UPS 1 Ph Online Additional Features

## **Built-in Automatic Bypass**

Ensures seamless power to the load even in the event of catastrophic UPS failure

## Emergency Power Off (EPO)

Immediately remove power to all connected equipment in the event of emergency (applicable to standard & extended runtime 6 & 10 kVA models)

## Safety Agency Approved

Tested and approved to work with the connected service provider equipment and within the specified environment

## **Easy Remote Management**

Ability to remotely manage and communicate directly with your UPS using Dry Contact Card, SNMP Card and Modbus Protocol.

# Easy UPS Online LCD Display

# **LCD** Display

- On/Off Status LED: indicates power is ON
- On/Off Button: Press to turn UPS On or OFF
- Alert LED: lashes red when UPS has a notification or is steady state when there is a fault

- Mute/ESC button: Mutes alarm and serves as the Escape key when in the sub menus of the display
- Enter Key: Press to enter the display menus and choose an option within the menu
- Up/Down Arrows: Navigate keys through the display menus

# LCD Display Icons

UPS is in bypass mode

Overload- connected load is drawing more than the power rating

Mute: audible alarm disabled

**EVENT** Event: illuminated when the user is reviewing the event log

MANUAL Alert: UPS has detected error. Please see user's manual for details

ECO mode: illuminated when the unit provides utility power and power is within configured ranges

Life Is On

# Easy UPS Online Management Accessories

## Additional solution enhancement options

# Dry Contact Card (VGLS9901I)

The UPS management accessory provides two dry contact inputs and one relay output interface to Easy UPS SRV series.

## Ideal applications:

- IBM server, personal PC and workstation equipment
- Auto-controlled industrial equipment and communication applications

# SNMP Card (APVS9601)

SNMP Card provides direct communication with your Schneider Electric Easy UPS and monitors the following:

- UPS status: load, battery charge, voltage
- Battery status: healthy, capacity & runtime
- Shutdown Wizard: remotely shuts down and reboots server

UPS Dry Contact Card VGLS9901I

UPS Network Management Card: APVS9601

# Modbus Card (SRVSMB001)

Easy Management Modbus Card provides UPS and PV inverter systems with the functionality of communication with PCs.

#### Features:

- Remotely manage UPS
- Schedule automatic shutdowns
- Customizable actions in case of power problems

SRVSMB001

# Easy UPS Online Accessories (Continued)

Additional solution enhancement options

# Rail Kits (SRVSRK1, SRVSRK2)

Schneider Electric Easy UPS Rail Kit provides simple rack mount installation, allowing for easy UPS maintenance while minimizing space needed.

## SRVSKR1:

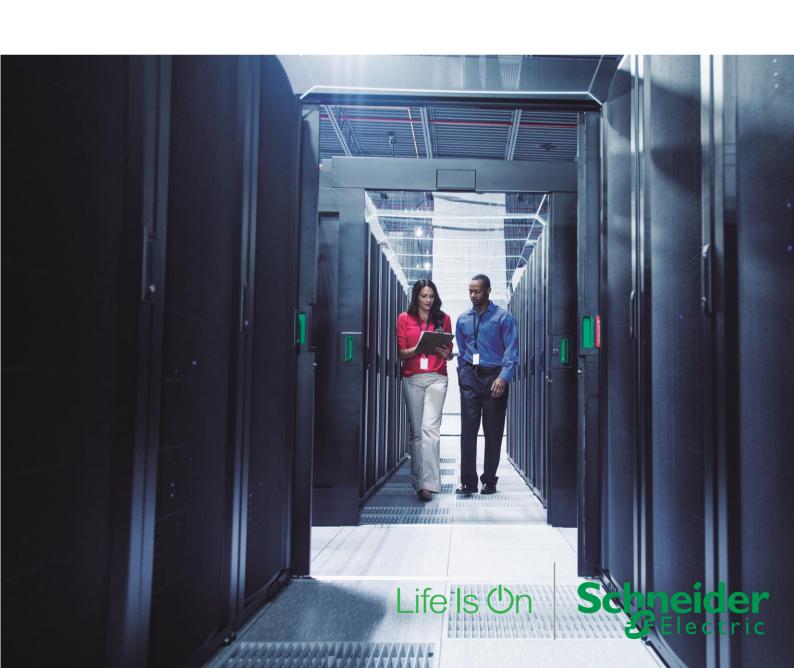

• Rail Kit for UPS / Battery Pack (700mm)

## SRVSKR2

• Rail Kit for Battery Pack (900mm)
